Sky Blue RAL 5015

Grass Green RAL 6010

Light Grey RAL 7035

Dusty Grey RAL 7037

Traffic Grey B RAL 7043

Red Oxide

Jet Black

Curtain Call

PLEASE NOTE

The colour swatches above give a guide to colours that are generally available from DIAMONDCRETE. The colours are only approximate, due to the inherent difference between the printing process and the actual colour.

It is the responsibility of the purchaser to approve the actual colour to be supplied. DIAMONDCRETE will also manufacture epoxy pigments of other colours against firm order.

The use of non-epoxy retail and industrial pigments is theoretically possible. The use of epoxy pigments is however recommended wherever water or

chemical resistance is an important issue. Universal paint pigments will destroy water resistance and can cause compatibility problems.

Industrial paint pigments can seriously affect the chemical resistance of any epoxy coating to which they are added.

Gloss levels and shades of Diamondcrete Cementitious Polyurethane colours may differ slightly to conventional epoxy products due to contrasting resins, hardeners and aggregates used in formulation
